

Hidable Navigation Bar instructions

Instructions

This profile makes minor changes to your site layout and hides the top module zone when you scroll down the page.

Changes by this profile

Site layout (in **Control Panels > Look and Feel**) will be set to **Fixed top navbar 1 (uses "top" module zone)**

Preference Site logo (feature_sitelogo) will be disabled so that logos and site title are not shown twice

After scrolling down a bit, the fixed top bar will disappear and the topbar zone (if any) will become sticky. This is made through the addition of a module with some javascript.

This profile is best demonstrated after applying the **Collaborative Community** profile which include site title and topbar module with menus.
